INSTRUCTIONS FOR COMPLETING
DISCHARGE MONITORING REPORT

Read these instructions before completing form:

After reading and understanding instructions and forms, please return acknowledgement card.

Sampling and testing procedures should follow those published in 40 C.F.R. 136. These are basically Standard Methods or EPA procedures.

Forms should be completed in triplicate for each discharge with copy each for EPA, state and your records. If the state requires a more frequent submittal than EPA, collate EPA's copies and send as required.

Enter permittee name and facility address, PERMIT NUMBER, discharge number and reporting period. (A separate page is required for each discharge.)

For each parameter monitored during the reporting period, (either as a requirement of the permit or for own information) summarize the data as required in the permit and complete the form as follows:

1. Parameter column - list parameter name.
2. Enter minimum, average and maximum values for quantity and/or concentration under appropriate column headings.
 - a. If frequency is once per month or less, enter the one value under average and leave minimum and maximum blank.
 - b. lb/day (pounds per day) equals flow (in million gallons per day) times concentration (in mg/l) times 8.34.
Example: $2.5 \text{ MGD} \times 30 \text{ mg/l BOD} \times 8.34 = 625.5 \text{ lb BOD/day}$
 - c. MGD equals gallons per minute times 1440.
3. Enter units as appropriate.

MGD - million gallons per day
lb/day - pounds per day
mg/l - milligrams per liter
SU - standard units for pH
°F - degrees fahrenheit
kg/day - kilograms/day = $\frac{\text{lb/day}}{2.2}$
(other units may be used as necessary)
4. Specify the number of samples that exceeded the maximum (and/or minimum, as appropriate) in the columns "NO. EX." If none, enter "0". If there are any violations, send a letter of explanation.
5. Specify frequency of analysis as number of analyses/number days (3/7 is three analyses per every 7 days, 1/7 is weekly, 1/30 is once a month, 30/30 is daily, 1/90 is quarterly & 1/180 is semiannually) If continuous, enter "CONT".
6. Specify sample type ("grab" or "___hr. composite")
If frequency was continuous enter "NA."

Indicate person or laboratory performing analytical work under Remarks.

Print name and title of person responsible for monitoring and reporting and sign and date the form.

Mail state copy to appropriate state agency and EPA copy to

Environmental Protection Agency
Permits Branch
Box 8127
Boston, MA 02114

When supply of forms will be exhausted within 2 months, send reorder form or reproduce forms yourself.

CERTIFICATE OF ANALYSIS

December 7, 1990

TO: ~~Robert Morris~~

SUBJECT: WASTEWATER SAMPLE FROM 21 INCH OUTFALL TO BE ANALYZED
FOR PH, OIL AND GREASE, COD, TSS AND CHROMIUM

SAMPLE DESCRIPTION:

Twelve sample bottles from 21 inch outfall to be composited into
one wastewater sample.

EXPERIMENTAL:

The sample was analyzed in accordance with the procedures found in
"Standard Methods". The sample was analyzed 12/4/90.

RESULTS:

<u>Parameters</u>	<u>Results</u>
ph	7.5 (ave.) SU
TSS	0.9 mg/l
COD	5.3 mg/l
Chromium	none detected
O&G	3.03 mg/l
